

Songhees Nation Job Posting

Temporary full-time position

JOB TITLE:	Marine Environmental Biologist		
Reports to:	Lands manager and SSI Project manager	Salary Scale:	\$36.00
Department:	Local Services	Deadline:	May 15, 2022

POSITION SUMMARY:

This position is for a 1-year term, with the possibility for an extension based upon funding.

Under the direction of the Salish Sea Initiative Project Manager and the Lands Manager the Marine Environmental Biologist will provide expertise on a variety of projects including baseline data collection, and Environmental Monitoring. This role is a combination of fieldwork, compiling data and reporting and teamwork while collaborating and supporting projects as outlined by the Salish Sea Initiatives. The successful candidate will work as a member of our team fulfill existing and upcoming project obligations.

This person will have incorporated a knowledge of aquatic technical expertise in the marine environment, excellent time management skills, and a deep understanding on different aspects of marine life, including the process of marine development, how organisms interact with one another and the ecosystem and how pollution may affect marine environments, and in addition strong client relationships skills. The person who accepts this role will be highly organized, with attention to detail, quality and project delivery, and is able to leverage their network of contacts.

REQUIRED EDUCATION AND EXPERIENCE:

- Bachelor's degree in biology with a focus on Marine Environments

OTHER SKILLS AND ATTRIBUTES:

- Critical and analytical thinking
- Observational skills
- Physical and emotional stamina
- Teamwork

WORK CONDITIONS:

- Irregular hours based on project needs
- Outdoor work and various weather conditions
- Office setting and peripherals
- Usage of marine equipment
